PROFILE

Highly motivated Computer Science and Engineering student at VIT-AP with a strong focus on Artificial Intelligence and Deep Learning. Passionate about leveraging technology to build innovative solutions, with hands-on experience in full-stack development and hardware-software integration.

EDUCATION

Vellore Institute of Technology-AP

B.Tech in Computer Science and Engineering

Amaravati, AP

2023 – 2027

- Current CGPA: **8.33**

Vidya Bharati Chinmaya Vidyalaya (CBSE)

Higher Secondary Education (Class XII)

Jamshedpur, JH

2022

- Percentage: **79.8%**

TECHNICAL SKILLS

Languages:	Java, Python, SQL, C++, HTML/CSS, JavaScript
AI/ML Stack:	Ollama, LangChain, ChromaDB, RAG, Embeddings, LLMs, OpenCV, Data Science
Tools & Frameworks:	Raspberry Pi, Chrome Extension API, PyPI, pytest, Git, OpenSource Development
Soft Skills:	Leadership, Creative Thinking, Problem Solving

PROJECTS

local-persona-memory — Published PyPI Package | *Python, Ollama, ChromaDB, LangChain, RAG*

- Published production-grade open-source Python package on PyPI — installable worldwide via `pip install local-persona-memory` — giving any local LLM permanent long-term memory with zero cloud dependency.
- Built full RAG pipeline with ChromaDB vector storage, PDF ingestion, semantic search, conversation history, export/import, and callback hooks. Shipped with 160 passing tests and GitHub Actions CI/CD.

URL Shortener & Analytics Platform | *Python, FastAPI, PostgreSQL, Redis, Kafka*

- Built a microservices-based URL shortener with separate Shorten, Redirect, and Analytics services behind an API gateway to practice service decomposition.
- Used PostgreSQL for persistent URL mappings and Redis caching in front of the Redirect service; Kafka streams click events asynchronously to Analytics.

Smart Attendance Face Recognition System | *Raspberry Pi, Python, OpenCV*

- Designed a hardware-software integrated project using Raspberry Pi for real-time biometric identification.
- Utilized OpenCV libraries for facial detection and recognition to automate attendance tracking logs.
- Engineered an end-to-end pipeline from image capture to database logging, ensuring 95%+ recognition accuracy.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure (OCI) Certified AI Foundations Associate
- Coursera Full Stack Web Development
- Infosys Springboard — Introduction to Data Science (May 2026)
- Hashgraph Developer Course
- High-Performance Coding (HPC) Certification by IAMNEO
- Finalist in Engineering Clinics (2025)
- Hack2Skill GDG (Google Developer Groups) Hackathons at VIT-AP

LANGUAGES

Hindi (Native), English (Professional)
